PROXY STATEMENT
TO BE HELD ON JUNE 6, 2007
GENERAL

This Proxy Statement is being furnished to shareholders of Roper Industries, Inc. (the "Company" or "Roper") in connection with the solicitation of proxies by the Board of Directors of the Company (the "Board of Directors") for use at the Annual Meeting of Shareholders, and any adjournments thereof, to be held at the time and place set forth in the accompanying notice ("Annual Meeting"). It is anticipated that the mailing of this Proxy Statement and the enclosed proxy card will commence on or about April 24, 2007. All shareholders are urged to read this Proxy Statement carefully and in its entirety.

ANNUAL MEETING INFORMATION

The Annual Meeting will be held on June 6, 2007, at noon, local time, 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240.

SOLICITATION OF PROXIES

The enclosed proxy is solicited by the Board of Directors. Roper will bear the costs of proxy solicitation. In addition to soliciting proxies by use of the mails, its officers and regular employees may devote part of their time, without additional compensation, to solicitation by fax, telephone or personal calls. Arrangements may also be made with brokerage houses and other custodians, nominees and fiduciaries for the forwarding of solicitation material to beneficial owners and for reimbursement of their out-of-pocket and clerical expenses incurred in that connection. The Company has engaged Georgeson Shareholder Communications, Inc. as the proxy solicitor for the Annual Meeting for a fee of approximately \$9,000 plus reasonable expenses.

Where multiple shareholders share the same address, only one copy of this Proxy Statement will be mailed to that address unless Roper has been notified by such shareholders of their desire to receive multiple copies of the Proxy Statement. If you share an address with another shareholder and wish to receive a separate Proxy Statement, you may instruct Roper to provide a separate Proxy Statement by writing to the attention of the Secretary at the address set forth in the following paragraph, or by calling 941-556-2601. Shareholders who share the same address and already receive multiple copies of the Proxy Statement, but prefer to receive a single copy, may contact Roper at the same address and phone number to make such request. Any shareholder, without affecting any vote previously taken, may revoke a proxy by a later-dated proxy or by giving notice of revocation in writing addressed to Roper Industries, Inc. (see address below), Attn: Secretary.

The mailing address of the Company's principal executive office is Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240. This Proxy Statement is accompanied by the Company's 2006 Annual Report on Form 10-K (the "Annual Report") filed with the Securities and Exchange Commission ("SEC"). Additional copies of the Annual Report are available on written request mailed to the attention of the Secretary at the above address. In addition, this report and exhibits are available on the internet at www.sec.gov. The Annual Report on Form 10-K is not part of these proxy soliciting materials.

RECORD DATE; VOTING RIGHTS

Only shareholders of record of the Company's Common Stock at the close of business on April 20, 2007 (the "Record Date") will be entitled to notice of and to vote at the Annual Meeting on all matters. We have one

class of voting securities outstanding, which is designated as Common Stock, and each share of Common Stock is entitled to one vote upon all matters to be acted upon at the Annual Meeting. At the close of business on the Record Date, the Company had 88,297,458 shares of Common Stock outstanding and entitled to vote. The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Each outstanding share is entitled to one vote on all matters. For purposes of the quorum and the discussion below regarding the vote necessary to take shareholders action, shareholders of record who are present at the meeting in person or by proxy and who abstain at the Annual Meeting, and “broker non-votes,” are considered shareholders who are present and count toward the quorum. If there are not sufficient votes for a quorum or to approve any proposal at the Annual Meeting, the Annual Meeting may be adjourned in order to permit the further solicitation of proxies.

Under the rules of the New York Stock Exchange (the “NYSE”), brokers who hold shares in “street name” have discretionary authority to vote on the election of directors and on other routine items when they have not received instructions from beneficial owners. In addition to the proposal for the election of directors, the proposal for the ratification of the appointment of independent auditors and the proposal for the amendment to the Certificate of Incorporation are also routine matters. Therefore, if you do not vote your proxy, your brokerage firm may either vote your shares on these routine matters, or leave your shares unvoted. When a brokerage firm votes its customers’ unvoted shares on routine matters, these shares are counted for purposes of establishing a quorum to conduct business at the meeting and determining the outcome of the vote on routine matters. Roper encourages you to provide instructions to your brokerage firm by signing and returning your proxy.

With regard to the election of directors, votes may be cast in favor of all nominees or withheld from all nominees or any particular nominee. Directors will be elected by a plurality of the votes entitled to be cast present in person or represented by proxy at the Annual Meeting. Votes that are withheld and broker non-votes will be excluded entirely from the vote calculation and will have no effect on the outcome of the voting.

With respect to approval of the amendment to the Certificate of Incorporation to increase the number of authorized shares of common stock, votes may be cast for, against or abstain. The approval of the amendment to the Certificate of Incorporation requires the affirmative vote of a majority of the outstanding shares of common stock entitled to vote on the proposal. Abstentions and broker non-votes with respect to approval of the amendment to the Certificate of Incorporation will have the effect of votes against the proposal.

The appointment of PricewaterhouseCoopers LLP as the independent auditors of the Company will be ratified by the affirmative vote of a majority of the total votes present in person or represented by proxy and entitled to vote. An abstention will have the effect of a vote against this proposal.

The Board of Directors knows of no additional matters that will be presented for consideration at the Annual Meeting. Return of a valid proxy, however, confers on the designated proxy holders discretionary authority to vote the shares in accordance with their best judgment on such other business, if any, that may properly come before the Annual Meeting or any adjournment or postponement thereof. Proxies solicited hereby will be tabulated by inspectors of election designated by the Board of Directors.

You are urged to sign the enclosed proxy and return it promptly in the envelope enclosed for that purpose. Proxies will be voted in accordance with your directions. If a proxy is signed, but no directions are given, it will be voted (i) FOR the election of the nominees named herein for Director, (ii) FOR the approval of the amendment to the Certificate of Incorporation to increase the number of shares of common stock outstanding and (iii) FOR the ratification of the appointment of PricewaterhouseCoopers LLP as the independent auditors of the Company.

REVOCATION OF PROXIES

Any proxy may be revoked at any time prior to its exercise by the filing of a written notice of revocation with the Secretary of the Company or by delivering to the Company a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. However, if you are a shareholder whose shares are not registered in your own name, you will need documentation from your record holder stating your ownership in order to vote personally at the Annual Meeting.

Corporate Governance Guidelines

Roper has Corporate Governance Guidelines. These guidelines reflect the Board of Director's commitment to monitor the effectiveness of the functioning of the Board of Directors and its nominees. The Corporate Governance Guidelines are available on Roper's website (www.roperind.com) and also may be obtained upon request from the Secretary.

Nominating Process

The four directors standing for reelection at the Annual Meeting were unanimously nominated by the Board of Directors. Roper's independent Nominating and Governance Committee, acting under its charter, has determined the desired skills, ability, judgment, diversity and other criteria deemed appropriate for service as a director and is responsible for recommending new director candidates and re-nomination of existing directors based on those criteria, which includes, but is not limited to: high personal and professional ethics, integrity and values; knowledge of Company's business environment; sound judgment and analytical ability; skills and experience in the context of the needs of the Board of Directors; breadth of business experience; and whether the candidate meets the independence requirements of NYSE. The Company engages a third party to assist identify potential nominees. The Board of Directors' process for identifying and evaluating potential nominees also includes soliciting recommendations from directors of the Company.

Neither the Board of Directors nor the Nominating and Governance Committee has a specific policy regarding consideration of shareholder director nominees. However, shareholder nominees submitted pursuant to the following procedures will be considered. Under Roper's By-laws, nominations for director may be made by a shareholder of record entitled to vote. In order for a shareholder to make a nomination, the shareholder must provide a notice along with the additional information and materials required by the By-laws to Roper's Secretary not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting. No shareholder director nominee proposal in connection with the Annual Meeting was received under the By-laws or otherwise from any shareholder or group of shareholders. For the 2008 Annual Meeting of Shareholders, Roper must receive this notice on or after February 5, 2008, and on or before March 6, 2008. A shareholder can obtain a copy of the full text of the By-law provision by writing to Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240, Attention: Secretary. A copy of the By-laws has been filed with the SEC as an exhibit to Roper's Quarterly Report on Form 10-Q filed on September 13, 2000. A copy of the By-laws can also be viewed on Roper's website (www.roperind.com).

Shareholder Communications

The Board of Directors provides a process for shareholders to send written communications to the Board of Directors. Shareholders may send written communications to the Board of Directors, or the non-management members of the Board of Directors, in care of Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240, Attention: Secretary. The Secretary will compile all such communications from shareholders and submit them as addressed to the directors on a periodic basis. This process for shareholders to send such written communications also is set forth on Roper's website (www.roperind.com).

Interested Party Communications

Any "interested party" (in accordance with NYSE Listing Standard 303A.03) who desires to contact the Company's Board of Directors, any Committee of the Board, or select Board members (including the non-management directors as a group) may send written communications in care of Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240, Attention: Secretary.

Code of Business Conduct & Ethics

Roper has a Business Code of Ethics and Standards of Conduct (the "Code"). The Code addresses the professional, honest and candid conduct of each director, officer and employee; conflicts of interest, disclosure process, compliance with laws, rules and regulations, (including insider trading laws); corporate opportunities, confidentiality, fair dealing, protection and proper use of Company assets; and encourages the reporting of any illegal or unethical behavior. The Code applies to Roper's directors and employees, including its executive officers. The Code is available on Roper's website (www.roperind.com) and also may be obtained upon request from the Secretary. Any amendments to, or waivers of, the Code will be disclosed on Roper's website promptly following the date of such amendment or waiver.

Director Independence

The Board of Directors has a majority of independent directors as defined by the listing standards of the NYSE. As required by the director independence standards, the Board of Directors reviewed and analyzed the independence of each director in February 2007. The purpose of the review was to determine whether any particular relationships or transactions involving directors or their affiliates or immediate family members were inconsistent with a determination that the director is independent for purposes of serving on the Board of Directors and its Committees. During this review, the Board of Directors examined transactions and relationships between directors or their affiliates and Roper or Roper's management. As a result of this review, the Board of Directors affirmatively determined that all directors are independent, except for Messrs. Jellison and Calder, and that each member of the Audit, Compensation, and Nominating and Governance Committees is independent for purposes of serving on such Committees. The Company's director independence standards are available on Roper's website (www.roperind.com) and may be obtained upon request from the Secretary.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee during fiscal year 2006 served as an officer, former officer, or employee of the Company or had a relationship discloseable under "Related Person Transactions." Further, during 2006, no executive officer of the Company served as:

- A member of the Compensation Committee (or equivalent) of any other entity, one of whose executive officers served as one of our directors or was an immediate family member of a director, or served on our Compensation Committee; or
- director of any other entity, one of whose executive officers or their immediate family member served on our Compensation Committee.

Review and Approval of Related Party Transactions

The Company has operated under a Code for many years. The Company's Code requires all employees, officers and directors, without exception, to avoid engagement in activities or relationships that conflict, or would be perceived to conflict, with the Company's interests or adversely affect its reputation. It is understood, however, that certain relationships or transactions may arise that would be deemed acceptable and appropriate upon full disclosure of the transaction, following review and approval to ensure there is a legitimate business reason for the transaction and that the terms of the transaction are no less favorable to the Company than could be obtained from an unrelated person.

The Audit Committee is responsible for reviewing and approving, as appropriate, all transactions with related persons. The Company has not adopted written procedures for reviewing related person transactions. The Company reviews all relationships and transactions in which the Company and our directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. As required under SEC rules, transactions, if any, that are determined to be directly or indirectly material to the Company or a related person are disclosed.

BOARD COMMITTEES AND MEETINGS

The Board of Directors of the Company met six times during the fiscal year ended December 31, 2006. During such period, all of Roper's directors attended at least 75% of the total number of meetings of the Board of Directors and of any Committee on which he served. Roper encourages, but does not require, its directors to attend the annual meetings of shareholders.

The Board of Directors has not implemented a formal policy regarding director attendance at the annual meeting. One of Roper's directors, Mr. Jellison, the Chairman of the Board of Directors, attended the 2006 annual meeting of shareholders in person, and five directors, Messrs. Banks, Calder, Key, Prezzano and Wright, attended by telephone.

Roper's non-management directors meet in executive session at each Board of Directors meeting. The non-management directors choose the director who presides at these meetings, and that role is rotated.

Board Committees

The Board of Directors of the Company has four standing committee: the Executive Committee, the Audit Committee, the Compensation Committee, and the Nominating and Governance Committee. Each of the Audit Committee, Compensation Committee, and Nominating and Governance Committee operates under a written charter, copies of which can be viewed on Roper's website (www.roperind.com) and may be obtained upon request from the Secretary.

Executive Committee: No Meetings Were Held in 2006

The Executive Committee has the authority to exercise all powers of the Board of Directors between regularly scheduled Board of Directors meetings.

Audit Committee: 8 Meetings Held in 2006

The functions and responsibilities of the Audit Committee are described in the "AUDIT COMMITTEE REPORT" on page 11. The Board of Directors has determined that based on his extensive background and expertise, particularly as the chief financial officer of various other public companies, Mr. Devonshire meets the criteria of an "audit committee financial expert" under SEC rules and has accounting and related financial management expertise within the meaning of the listing standards of the NYSE.

Compensation Committee: 5 Meetings Held in 2006

The Compensation Committee administers Roper's executive incentive compensation programs and determines, together with the other independent members of the Board of Directors, annual salary levels and incentive compensation awards for the Company's executive officers. The Compensation Committee also, at the direction of the Board, periodically reviews and determines the form and amounts of Director compensation and reviews and makes recommendations to the Board with respect to employee compensation and benefits.

Nominating and Governance Committee: 3 Meetings Held in 2006

The Nominating and Governance Committee assists the Board of Directors in identifying individuals qualified to become directors, determining the size and composition of the Board of Directors and its Committees, developing and implementing corporate governance guidelines, and evaluating the overall effectiveness of the Board of Directors and its committees.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors is comprised of three non-employee directors, each of whom has been determined by the Board of Directors to be independent under the rules of the NYSE and the SEC. The Audit Committee's responsibilities are set forth in its charter.

The Audit Committee oversees and reviews with the full Board of Directors any issues with respect to the Company's financial statements, the structure of the Company's legal and regulatory compliance, the performance and independence of the Company's independent auditors and the performance of the Company's internal audit function. The Committee retains the Company's independent auditors to undertake appropriate reviews and audits of the Company's financial statements, determines the compensation of the independent auditors, and pre-approves all of their services. Company management is primarily responsible for the Company's financial reporting process and for the preparation of the Company's financial statements in accordance with accounting principles generally accepted in the United States ("GAAP"). The Audit Committee maintains oversight of the independent public accountants by discussing the overall scope and specific plans for their audits, the results of their examinations, their evaluations of the Company's internal accounting controls, and the overall quality of the Company's financial reporting.

The Audit Committee maintains oversight of the Company's internal audit function by evaluating the appointment and replacement of the Company's manager of internal auditing and periodically meeting with the manager of internal auditing to receive and review reports of the work of the Company's internal audit department. The Audit Committee meets with management on a regular basis to discuss any significant matters, internal audit recommendations, policy or procedural changes, and risks or exposures, if any, that may have a material effect on the Company's financial statements.

The Audit Committee has: (i) appointed and retained PricewaterhouseCoopers LLP ("PwC") as the Company's independent auditors for the fiscal year ended December 31, 2006; (ii) reviewed and discussed with the Company's management the Company's audited financial statements for the fiscal year ended December 31, 2006; (iii) discussed with PwC the matters required to be discussed by Statements on Auditing Standards No. 61—"Communications with Audit Committees," as amended, as then in effect; (iv) received the written disclosures and the letter from PwC required by Independence Standards Board Standard No. 1—"Independence Discussions with Audit Committees," as then in effect, and has discussed with PwC their independence; (v) discussed matters with PwC outside the presence of management; (vi) reviewed internal audit recommendations; (vii) discussed with PwC the quality of the Company's financial reporting; and (viii) reviewed and discussed with PwC the results of the audit of (1) management's assessment of the effectiveness of internal controls over financial reporting, and (2) the effectiveness of internal controls over financial reporting in accordance with § 404 of the Sarbanes-Oxley Act.

In reliance on the reviews, reports and discussions referred to above, the Audit Committee recommended to the Company's Board of Directors, and the Board of Directors has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006, for filing with the Securities and Exchange Commission.

AUDIT COMMITTEE:

Christopher Wright, Chairman
W. Lawrence Banks
David W. Devonshire

The foregoing report and other information provided above regarding the Audit Committee should not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Acts, except to the extent that Roper specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

This compensation discussion and analysis (“CD&A”), is intended to provide information about our compensation objectives and policies for our chief executive officer, our chief financial officer, and our three other most highly compensated executive officers (“named executive officers”) that will place in perspective the information contained in the tables that follow this discussion. Our CD&A is organized as follows:

Information about our Compensation Committee of the Board of Directors and the processes it uses in determining the compensation of our named executive officers is provided in the section of the proxy statement dealing with corporate governance matters.

Objectives of our Compensation Program

Roper is a diversified growth company. Our goal as a company is to effectively execute our business strategies to achieve results that create value for our investors. We maintain the nimbleness associated with smaller companies while realizing the scale benefits of larger organizations. Our compensation program for executives is based on our business needs and challenges in creating shareholder value. To do this we:

- Tie compensation to performance;
- Emphasize equity compensation to align executives’ financial interests with those of shareholders;
- Maintain compensation and reward levels that are competitive in both publicly traded and privately held enterprises that enable us to recruit and retain seasoned leadership capable of driving and managing a growth company;
- Simplify compensation design to facilitate ease of administration and communication;
- Maintain flexibility to adjust to changing business needs in a fast-paced business environment; and
- Adhere to the highest legal and ethical standards.

Market Benchmarking

Market pay levels are one of many factors we consider in setting compensation levels and equity participation for executives. To provide a frame of reference, information on market pay levels are obtained from various sources including: published compensation surveys, information for selected benchmark and other publicly traded companies, our first-hand experience obtained from the marketplace in hiring executives, examining compensation levels used by private equity to attract leadership teams and to share the rewards of value creation with those executives.

We annually gather information on pay levels and practices for a group of publicly traded benchmark companies selected based on their business focus. The companies included in the group are periodically reviewed and evaluated in light of our development and growth. The group of benchmark companies used in 2006 is believed to be a reasonably comparable group of public companies with which we compete for customers, investors, and executives. Roper is in the middle of the group in terms of size, but with economic performance being in the upper quartile of the benchmark companies. The benchmark companies for 2006 included Danaher, Thermo Fisher Scientific, Dover, ITT, Waters, Millipore, Ametek, SPX, Pentair, Flowserve, IDEX, Perkin-Elmer, Crane, and Varian. Information for each company is collected in regard to total compensation levels for named executive officers (including base salary, annual bonus, long-term incentives, and other compensation), dilution from stock incentives, share usage under stock incentive plans (including the number of shares historically granted annually as a percentage of total shares outstanding and the expense of all stock awards granted as a percentage of market capitalization), retirement practices, and other related items. This information is summarized and reviewed with the Compensation Committee. We also periodically gather information from leading published compensation surveys for industrial companies generally and review information related to compensation among private equity firms.

We have no formal policies or practices on specific relationships between compensation for our executives and statistics on market pay levels. Our goal is to provide compensation that allows us to attract and retain executives capable of effectively leading in a diversified growth company. Market pay levels are only one factor considered in evaluating the supply of and demand for executives, with the decision ultimately reflecting an evaluation of individual contribution and value to the Company.

Elements of Compensation

This section describes each element of executive compensation, the objective of each element and how it fits into our overall program, and the basis for allocations among elements. Details on the application of our compensation policies and programs to executive officer compensation for 2006 are discussed in the following section "Analysis of 2006 Compensation."

Long-Term Stock Incentives

Equity compensation is the cornerstone of the total compensation program for our named executives, and receives the heaviest weighting of all elements. It is intended to be a key element in driving the creation of value for investors and in attracting and retaining executives capable of effectively executing our business strategies. We emphasize equity compensation because it supports the achievement of many of our key compensation objectives:

- Align executives' interest with those of shareholders.
- Retain executives and reward future service, by providing for forfeiture of awards prior to satisfaction of multi-year service requirements.
- Tie pay to performance by linking compensation to the value created for shareholders.
- Attract executives, particularly those interested in building long-term value for shareholders, as equity compensation is a key element of competitive pay packages for executives.

Our long-term incentive program currently consists of a blend of two types of awards, both tied to stock price:

- **Stock Options**—The exercise price of stock options is set at the market price of our stock on the date of grant, with options generally vesting in installments over three years. This design gives executives an incentive to increase share price and requires continued service over several years in order to realize any potential gains. Stock options generally expire seven years after grant, shorter than the typical 10 years in market practice, in an effort to reduce associated dilution and expense.

- **Restricted Stock**—As with stock options, restricted shares generally vest in installments over three years. In some cases, however, restricted shares may fully vest at the end of three years without annual installment vesting. Dividends are paid currently on restricted shares during the vesting period. Restricted stock is intended to encourage the retention of executives, while providing a continuing incentive to increase shareholder value.

To strengthen the alignment with shareholders, the size of awards has been generally expressed as a constant number of shares which fluctuate in value from year to year with changes in stock price.

While stock is a major component of executive compensation, other elements are needed to provide an integrated and competitive total pay package.

Base Salary

Base salaries are a significant portion of executives' compensation. They are determined based on an executive's role in the Company, scope of responsibilities, experience and skills. Market practices are also considered in setting salaries. Base salaries are intended to assist us in attracting executives and recognizing differing levels of responsibility and contribution among executives. It represents a smaller percentage of compensation for more senior executives, with a greater percentage of compensation tied to performance and value creation.

Annual Incentive Bonuses

In addition to equity compensation and salary, annual bonuses paid in cash are another significant piece of total compensation for our executives. Annual bonus opportunities are intended to support the achievement of our business strategies by tying a significant portion of compensation to the achievement of established financial objectives for the year. Annual bonus opportunities also are a key tool in attracting executives due to their market prevalence and add a variable component to our overall cost structure.

Retirement Benefits

We currently do not have a traditional pension program. Our executives participate in a 401(k) program, which is the same as for other eligible employees. This program provides for matching contributions capped at 7.5% of salary subject to limitations imposed by the Internal Revenue Code. Our retirement plan is a component of our total compensation program and subject to periodic review.

In order to provide financial planning flexibility consistent with market practices, we have historically maintained a Non-Qualified Retirement Plan under which our executive officers may elect to defer cash compensation and receive tax-deferred returns on those deferrals. This plan also provides deferred compensation benefits that would be earned under the tax-qualified 401(k) program but for certain compensation and benefits limitations imposed by the Internal Revenue Code. For more information on this plan, see the Nonqualified Deferred Compensation section on page 24.

Other Benefits and Perquisites

Executive officers participate in our other employee benefit programs on the same terms as similarly situated employees. In addition, certain executive officers participate in a Medical Reimbursement Plan which pays for certain medical and dental expenses. We have generally avoided the use of perquisites and other types of non-cash benefits, but we do provide for an automobile allowance and club memberships when they have a business purpose.

Severance Benefits

To assist in the recruitment of executives, we entered into severance or change-in-control arrangements with four of our named executive officers when they joined the Company, which provide severance benefits in the

event of termination of employment under certain circumstances. For a description of these agreements and the payments that would be due under various termination scenarios, see the "Potential Payments upon Termination or Change in Control" section on page 25. In addition, our equity awards provide for accelerated vesting upon termination of employment in certain circumstances, as summarized below.

Equity Award Provisions. Our stock awards to named executive officers, as well as other participants, provide for accelerated vesting of awards in certain circumstances. Under the 2006 Stock Incentive Plan, as approved by shareholders at the 2006 Annual meeting, vesting will be accelerated for outstanding awards if the awards are not assumed or otherwise equitably converted into comparable awards by the acquiring company following a change of control. If the awards are assumed by the acquirer and within two years after the change in control a participant's employment is terminated without "cause" or a participant resigns for "good reason," the participant's awards will become vested ("double trigger" approach). We adopted this approach, rather than providing for vesting solely upon a change in control ("single trigger" approach) because we believe that double triggers provide adequate employment protection and reduce potential costs associated with the agreements to an acquirer of the Company. This policy is subject to periodic review and possible revision.

Tax Gross-Ups. Under Section 280G of the Internal Revenue Code, an executive may be subject to excise taxes on benefits received in relation to a change in control of the Company. While many companies provide excise-tax gross-ups to executives to place the executive in the same tax position as if the excise tax did not apply, we have not historically provided this protection to any executive. This policy is subject to periodic review and possible revision.

Mix of Total Compensation

In regard to the allocation of the various pay elements within the total compensation program, no formula or specific weightings or relationships are used. Our emphasis is on long-term incentives tied to stock price over cash and other forms of compensation. Annual bonuses are the other key form of incentive compensation and, for top executives, are targeted to equal or exceed base salaries to emphasize pay that varies based on performance, rather than salaries or other forms which do not directly vary with performance. Base salaries are the other significant form of current compensation and receive the lowest weighting. Only a small portion of total compensation is not paid in current cash or stock. Perquisites and other types of non-cash benefits are used, as noted above, on a limited basis and represent only a small portion of total compensation for executives.

Analysis of 2006 Compensation

Consistent with our philosophy of linking performance and compensation, compensation for our named executive officers in 2006 was based on our business results. 2006 was another year of strong growth and performance for Roper. Earnings grew by more than 20% over 2005's record levels, while revenues grew by more than 16% from the prior year. Profit margins continued to improve and cash generation remained strong. This section discusses and analyzes the compensation actions that were taken in 2006 for our named executive officers, as reported in the following compensation tables.

Base Salary

The Compensation Committee reviews the base salaries of our named executive officers each year, as well as at the time of a promotion or other change in responsibility. Any salary adjustments are usually approved in February, effective as of January 1. Salaries for 2006, as effective as the start of the year, were higher than 2005 by the following percentages for our named executive officers (excluding our former chief financial officer, Mr. Towe, who left the Company in March 2006): Mr. Jellison: 5.9%; Mr. Humphrey: Not applicable; Mr. Winfrey: 29.0%; Mr. Wood: 18.2%; Mr. Crocker: 5.0%. These increases generally reflect the continued growth of the Company, as well as the Committee's evaluation of the responsibilities and performance of each officer. The increases for Mr. Winfrey and Mr. Wood reflected the assignment of broader operating responsibilities. The salary of our chief financial officer, Mr. Humphrey, was set when he joined the Company in April 2006.

Annual Incentive Bonus

Annual incentive bonuses for our named executive officers are based on achieving financial performance targets that are established at the start of the year. Additional factors related to the creation of value for shareholders are also considered when deemed appropriate by the Compensation Committee.

Under our program, each named executive officer is assigned an incentive opportunity expressed as a percentage of his base salary. For the chief executive officer in 2006, that percentage was 200% of salary, as increased from 175% in 2005. This increase in bonus opportunity reflects the chief executive officer's performance, the Company's performance and continued growth, and market practice. For the other named executive officers, the percentage in 2006 was 100% of salary.

For 2006 and the past several years, adjusted diluted earnings per share ("EPS") has been the primary financial measure used to determine bonuses for executive officers. EPS is determined by the Compensation Committee and is defined as GAAP diluted EPS adjusted for non-recurring items. Segment operating income growth is also used for our named executive officers who are segment leaders. For the EPS component in 2006, a 20% growth objective over 2005 was set as the level at which the full bonus opportunity would be earned. To the extent earnings grew between 4.5% and 20%, the percentage of the bonus opportunity earned would be determined through straight-line interpolation. EPS for the company grew by more than 20% in 2006 over 2005 and payment of the full bonus opportunity for the EPS component for 2006 was approved by the Compensation Committee. In regard to the segment measures, bonuses were based on operating income growth using the same formula as described above for EPS growth. All segments received full bonuses for 2006 as performance exceeded the maximum performance level, except for the Energy segment which received a partial bonus based on their performance. The bonuses to our named executive officers for 2006 are shown in the Summary Compensation Table below on page 21.

For 2007, a similar approach to annual incentive bonuses as used in 2006 has been retained except that EBITDA per share (EBITDA defined as net earnings before interest, taxes, depreciation and amortization) will be used instead of EPS at the corporate level. The share count used in the EBITDA per share calculation will be the average diluted shares outstanding for 2007 excluding the effects of the company's convertible notes.

Long-Term Stock Incentives

For 2006, we continued our practice of awarding a blend of stock options and restricted shares to our executive officers. Consistent with our philosophy of aligning executive officer compensation with shareholder value, the number of stock options and restricted shares awarded to our named executive officers was the same as in prior years. The only exceptions were for Mr. Winfrey who received 8,000 more stock options in 2006 than in prior years due to increased responsibilities and for Mr. Humphrey who was hired in 2006 and had not previously received awards. These awards are shown in the Grants of Plan-Based Awards Table below. In making its decision on the equity awards for 2006, the Compensation Committee reviewed past practices at the Company, the Company's performance as well as that of the named executive officers, and market compensation information.

Share Ownership and Retention Guidelines

We believe that our executives should have a significant equity interest in the Company. In order to promote such equity ownership and further align the interests of our executives with our stockholders, we adopted share retention and ownership guidelines for our key executives. The stock ownership requirements vary based upon the executive's level and are expressed as a number of shares, ranging from a minimum of 100,000 shares for the Chief Executive Officer to 15,000 shares for Group Vice Presidents. Until the stock ownership guidelines are met, an executive is required to retain 50% of any applicable shares received (on a net after tax basis) under our equity compensation program. Our key executives will have a substantial portion of their incentive compensation paid in the form of our common stock. The program is subject to periodic review by the Compensation Committee.

Regulatory Considerations

The Internal Revenue Code contains a provision that limits the tax deductibility of certain compensation paid to our named executive officers. This provision disallows the deductibility of certain compensation unless it is considered performance-based compensation under the Internal Revenue Code. Our stock options are designed to be performance based and fully deductible. The restricted stock awards granted to our named executive officers in 2007 are performance based in a manner than would preserve their full deductibility. We have adopted policies and practices that should ensure the full deductibility of our annual incentive bonuses. However, we may forgo any or all of the tax deduction if we believe it to be in the best long-term interests of our stockholders.

In making decisions about executive compensation, we also consider the impact of other regulatory provisions, including the provisions of Section 409A of the Internal Revenue Code regarding non-qualified deferred compensation and the change-in-control provisions of Section 280G of the Internal Revenue Code. In making decisions about executive compensation, we also consider how various elements of compensation will impact our financial results. For example, we consider the impact of Statement of Financial Accounting Standards No. 123(R), "Share-Based Payment," which requires us to recognize the cost of employee services received in exchange for awards of equity instruments based upon the grant date fair value of those awards.

COMPENSATION COMMITTEE REPORT

We have reviewed and discussed the foregoing Compensation Discussion and Analysis with management. Based on our review and discussion with management, we have recommended to the Board of directors that the Compensation Discussion and Analysis be included in this proxy statement and in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

Directors who were not employees were entitled to participate in the Company's 1993 Stock Plan for Non-employee Directors which provides for annual grants of up to 8,000 options to purchase shares of common stock or of restricted shares of common stock, or some combination of both, commencing in the year of the first annual meeting of shareholders following the year of initial appointment, subject to adjustment for certain capital transactions. In 2005 all directors except Mr. Jellison received 4,000 restricted shares of common stock. The awards for which expense is shown in this table include the awards described in the Grants of Plan-Based Awards table on page 22 of this proxy statement, as well as awards granted in 2004 and 2005 for which we continued to recognize expense in 2006.

Pension Benefits

None of our named executive officers participates in a Company-sponsored defined-benefit pension plan.

Nonqualified Deferred Compensation

Pursuant to the Company's Non-Qualified Retirement Plan, named executive officers may defer base salary and payments earned under the annual incentive bonus plan. Deferral elections are made by eligible executives before the beginning of each year for amounts to be earned in the following year. The executive may invest such amounts in funds that are substantially similar to those available under the 401(k) Plan.

The following table sets forth certain information with respect to the Non-Qualified Retirement Plan for our named executive officers during the fiscal year ended December 31, 2006.

- (2) The amounts are included in the Summary Compensation Table in the All Other Compensation column.

Potential Payments upon Termination or Change in Control

As described in the Compensation Discussion and Analysis beginning on page 12, the employment agreement with Mr. Jellison and offer letters or separation agreements with other named executive officers provide for certain benefits in the event of the termination of the officer’s employment under certain conditions. The amount of the benefits varies depending on the reason for the termination, as explained below.

Employment Agreement with Mr. Jellison

Termination for Cause; Resignation Without Good Reason. If Mr. Jellison were terminated for cause or if he were to resign without good reason (as such terms are defined in his agreement), he would receive the salary and vested benefits that are accrued through the date of termination, plus a pro-rata portion of his annual bonus earned through the date of termination, assuming the Company achieved the level of performance for which a bonus is paid for that year. No special severance benefits would be payable.

Termination Due to Death or Disability. If Mr. Jellison were to die or terminate employment due to disability, he (or his estate) would receive salary and vested benefits accrued through the date of termination, plus a pro-rata portion of his annual bonus earned through the date of termination, assuming the Company achieved the level of performance for which a bonus is paid for that year. No special severance benefits would be payable.

Termination Without Cause; Resignation for Good Reason. If Mr. Jellison were terminated without cause or resigned for good reason, either before a change of control of the Company occurs or more than one year after a change of control, he would receive a severance payment, in addition to accrued salary, earned and unpaid bonus from the prior fiscal year and vested benefits, of two times his annual base salary. He would also receive a pro-rated target bonus for the year and continuation of health and welfare benefits for a period of two years.

In Connection with a Change of Control. If Mr. Jellison were terminated without cause or resigned for good reason within one year following a change of control of the Company, then in addition to accrued salary, prorated bonus and vested benefits, he would be entitled to:

- a severance payment equal to two times the sum of (i) his then current base salary and (ii) the greater of the average of his last two years’ annual bonuses or his target bonus for the year of termination,
- accelerated vesting of all of his outstanding equity awards, and
- continuation of health and welfare benefits for a period of two years.

Restrictive Covenants. Mr. Jellison has also agreed not to compete with the Company for a period of one year after his termination of employment for any reason.

Offer Letters to Mr. Winfrey and Mr. Humphrey

Mr. Winfrey. Pursuant to an offer letter dated May 20, 2002, Mr. Winfrey would be entitled to a severance payment of one year’s salary and bonus if he were terminated by the Company for any reason other than gross misconduct.

Mr. Humphrey. Pursuant to an offer letter dated April 24, 2006, Mr. Humphrey would be entitled to receive consideration under the following termination scenarios:

- *Termination Without Cause:* severance equal to his then current salary and payable in monthly installments; in addition, any equity awards associated with his offer letter become immediately vested.

- *Change in Control*: accelerated vesting of all his outstanding awards granted on the date of hire.

Separation Agreement with Mr. Towe

On March 14, 2006 we entered in to a Separation Agreement with Mr. Towe, pursuant to which he received (i) continuation of his base salary through December 31, 2006, (ii) continuation of certain healthcare benefits for one year, (iii) a sixty day extension in which to exercise his fully vested options, and (iv) accelerated vesting of certain restricted shares awarded to him at the time of his hire (30,000 shares on a split-adjusted basis). Mr. Towe also received an additional lump-sum severance payment of \$15,000. In consideration of such severance benefits, Mr. Towe released the Company and its affiliates from all claims, demands and causes of action related to his employment with the Company.

Summary of Termination Payments and Benefits

The following tables summarize the value of the termination payments and benefits that each of our named executive officers would receive if he had terminated employment on December 31, 2006 under the circumstances shown. The benefits Mr. Towe received upon his termination of employment without cause during 2006 are summarized in the immediately preceding paragraph. Messrs. Crocker and Wood did not have a right to any separation or termination payments or benefits had they terminated employment as of December 31, 2006.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (“Exchange Act”) requires Roper’s directors, executive officers and persons who own more than 10% of Roper common stock to file with the SEC initial reports of ownership and reports of changes in ownership. Executive officers, directors and greater than 10% shareholders are required by SEC regulation to furnish Roper with copies of all Section 16(a) forms they file. Mr. Crocker, Mr. Jellison, Mr. Wood and Mr. Winfrey each had three late Form 4 filings and Mr. Calder, Mr. Devonshire, Mr. Johnson, Mr. Key, Mr. Prezzano and Mr. Wright each had one late Form 4 filing. All of these late filings were due to administrative errors and all the required filings have since been made.

To Roper’s knowledge, based solely on review of the copies of such reports furnished to the Company and written representations that no other reports were required, during the fiscal year ended December 31, 2006, except as set forth above, all of Roper’s executive officers and directors complied with applicable Section 16(a) filing requirements.

PROPOSAL 2: Amendment to the Certificate of Incorporation to increase the number of authorized shares of common stock of the Company.

The Board of Directors recommends that Article 4 of the Certificate of Incorporation be amended so as to increase the number of authorized shares of Common Stock, par value \$.01 per share, from 160,000,000 shares to 350,000,000. The proposal to increase such authorized number of shares of Common Stock is being submitted to the Company's shareholders.

The Company presently has authority to issue 161,000,000 shares of stock in the Company, of which the Company can issue 160,000,000 shares of Common Stock, \$.01 par value per share and up to 1,000,000 shares of Preferred Stock, \$.01 par value per share. The Board of Directors has not authorized an increase in the number of shares of Preferred Stock.

The text of the proposed amendment would read as follows:

"4. A. The total number of shares of stock which the corporation shall have the authority to issue is three hundred fifty one million (351,000,000) shares, divided into two (2) classes as follows:

- (i) three hundred fifty million (350,000,000) shares, each to be of the par value of one cent (\$.01), and to be designated as Common Stock; and
- (ii) one million (1,000,000) shares, each to be of the par value of one cent (\$.01), and to be designated as Preferred Stock."

As of the close of business on April 20, 2007, of the 160,000,000 shares of Common Stock presently authorized by the Certificate of Incorporation, 88,297,458 shares were issued and outstanding, 1,000,000 shares were reserved for issuance under the Company's stock option plan and 2,244,302 shares were held by the Company as treasury shares. If the increase in authorized common stock is approved, the number of authorized and unissued shares of Common Stock will increase to 261,702,542 shares. In order to give the Company greater flexibility in considering and planning for future business needs, the Board of Directors believes that it is in our best interests to increase the number of authorized shares of Common Stock.

The terms of the additional shares of Common Stock will be identical to those of the currently outstanding shares of Common Stock. This amendment will not alter the current number of issued shares. The relative rights and limitations of the shares of Common Stock would remain unchanged under this proposal. The Company does not have any plan, commitment, arrangement, understanding or agreement, either oral or written to issue any shares of the proposed common stock.

The Company is not proposing to increase its authorized shares of Common Stock in order to impede a change of control of the Company and the Company is not aware of any current efforts to acquire control of the Company. However, under certain circumstances, the additional shares of Common Stock could be issued by the Company to defend against, or otherwise respond to, a hostile takeover bid. For instance, the Company could issue shares of Common Stock to dilute the stock ownership of a person or entity seeking to obtain control of the Company. The Company could also respond to an unsolicited takeover bid by issuing, in a private placement or otherwise, a significant portion of its securities with purchasers who might align with the Board of Directors in response to a specific change of control transaction affecting the Company. Moreover, the issuance of shares of Common Stock to persons friendly to the Board of Directors could make it more difficult to remove incumbent officers and directors from office even if such change could be considered favorable to shareholders generally. The Company also notes that certain provisions of its Certificate of Incorporation and By-laws, including (i) its ability to issue "blank check" preferred stock, (ii) its classified board of directors and (iii) provisions in its By-laws limiting the ability of its shareholders to call special meetings and to propose business for consideration at annual meetings, could also under certain circumstances have the effect of discouraging attempts, or making it more difficult, to gain control of the Company.

Nevertheless, while the issuance of shares of Common Stock may have anti-takeover ramifications, the Board of Directors believes that the financial flexibility offered by this proposed amendment to the Certificate of Incorporation outweighs any such disadvantages. To the extent that the amendment may have anti-takeover effects, the amendment may encourage persons seeking to acquire the Company to negotiate directly with the Board of Directors enabling the Board of Directors to consider the proposed transaction in a manner that best serves the shareholders' interests.

The issuance of the additional shares of Common Stock contemplated by this proposal number two also could have the effect in certain circumstances of, among other things, diluting earnings per share, book value per share or voting power of the currently outstanding shares of Common Stock.

The affirmative vote of holders of a majority of the outstanding shares of Common Stock is required for approval of this proposal. Consequently, any shares not voted (whether by abstention, broker non-vote or otherwise) will have the same effect as votes against the proposed amendment to the Company's Certificate of Incorporation. If the amendment is approved by the shareholders, it will become effective upon the filing of a Certificate of Amendment in accordance with the General Corporation Law of Delaware.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR APPROVAL OF THE AMENDMENT TO THE CERTIFICATE OF INCORPORATION

PROPOSAL 3: Ratification of the appointment of PricewaterhouseCoopers LLP as the independent auditors of the Company.

The Audit Committee has appointed PricewaterhouseCoopers LLP (“PwC”) as the Company’s independent auditor for 2007. The Board of Directors recommends that the shareholders ratify this appointment. PwC has been the Company’s independent auditor since May 2002. One or more representatives of PwC are expected to be present at the Annual Meeting and will be given the opportunity to make a statement, if they so desire, and to respond to appropriate questions of shareholders in attendance. If this Proposal 3 does not pass, the selection of independent auditor will be reconsidered by the Audit Committee and the Board of Directors.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR APPROVAL OF THE RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS THE INDEPENDENT AUDITORS OF THE COMPANY.

Following (in thousands) are the professional fees billed by PwC for the fiscal years ended December 31, 2006 and 2005. It is the Audit Committee’s policy that all fees paid to the independent auditor require the Committee’s prior approval.
